예로부터 삼천리금수강산이라 불리워오는 조선은 지상도 아름답지만 지하 또한 아름다운 명승의 나라이다.

그 지하명승의 하나가 바로 룡문대굴이다.

2개의 원굴과 수많은 가지굴로 되어있는 룡문대굴은 오랜 세월 땅속의 석회암층에 대한 지하수의 용해, 용식작용에 의하여 형성된 세계적으로 보기 드문 희귀한 천연동굴이다.

석회암의 석수가 천래만상의 조화를 이루어놓은 동굴에는 관망대, 풍년동, 만물동, 석화동, 백화동, 금강굴, 백두밀영동, 보석동, 천상락원동, 장석동, 광명동, 형제동, 룡문광장을 비롯하여 20여개의 명소들이 있다.

룡문대굴은 1990년대에 관광지로 꾸러진 후 그 자태를 더욱 드러내었다.

이곳을 찾는 손님들은 신비한 지하세계의 황홀감에 도취되어 기쁨과 웃음속에 즐거운 시간을 보내게 될 것이다.

Korea is called the 3 000-ri land of golden tapestry for its beautiful scenery both above and under the ground.

And the Ryongmun Cavern is one of the underground scenic spots in the country.

The cavern that has been formed through the centuries-long process of the limestone being eroded by underground water is a world-famous wonder of nature.

With two major sections and numerous wings, it offers fantastic and marvellous scenery of stalactites and stalagmites. It is made up of over 20 scenic spots including Kwanmangdae (observatory), Phungnyondong (rich-harvest section), Manmuldong (myriad-forms section), Sokhwadong (stone-flowers section), Paekhwadong (white-flowers section), Kunganggung (palace of Mt Kumgang), Paektumilyongdong (secret-camp-on-Mt Paektu section), Posokdong (jewel section), Chonsangragwondong (paradise-with-many-mountains section), Jangsokdong (rocks-in-layers section), Kwangmyongdong (bright-future section), Hyongiedong (brothers section) and Ryongmun Plaza.

It was laid out as a tourist resort in the 1990s.

Visitors to the Ryongmun Cavern will enjoy the fabulously beautiful and fantastic underground scenery.
